

BMVA QUESTIONS RESPONSE

I would like to answer your question in point form.

1. I believe that tourism is our primary industry and that the TBM Must support and participate in its development.
2. Council must get serious about affordable accommodation.
3. A policy needs to be put in place early in councils mandate
4. A complete policy on transportation also needs to be put in place.
5. To solve the need for workers rests in the ability of the TBM to produce affordable accommodation. We must explore all ideas in the housing report.
6. I believe we should have a separate economic development officer to explore and bring new business to the TBM.
